

ROBIN GREGORY LEFEBVRE

robin.lefebvre@stran.ch | robin.lefebvre@student.unisg.ch | stran.ch | Zurich, Switzerland

PROFILE

Co-founder of STRAN, a live Swiss DLT Act 2021 real estate tokenisation platform. Authored the first formal Swiss legal analysis of LFAIE (Lex Koller) applicability to DLT Act ledger-based securities. Designed and built end-to-end ERC-3643 institutional custody and wallet infrastructure embedding CISA Art. 10 transfer restrictions and FINMA-aligned compliance logic directly into smart contract architecture. Applying to MME's DLT and blockchain legal practice to deepen Swiss crypto regulatory knowledge ahead of STRAN's FINMA licensing phase, with hands-on technical understanding of the platforms that legal opinions are written about.

LEGAL & REGULATORY WORK

Lex Koller Legal Brief (LFAIE & DLT Act)

2025

STRAN — Zurich, Switzerland

- Authored 19-page brief analysing LFAIE applicability to DLT Act 2021 ledger-based securities — first formal treatment of this question in Swiss law
- Assessed whether Swiss real estate tokenisation triggers foreign ownership restrictions under Art. 2 LFAIE and related cantonal practice
- Informed STRAN's token structure, investor eligibility framework, and ongoing FINMA classification analysis

CISA Art. 10 Compliance Architecture

2025 – Present

STRAN — Zurich, Switzerland

- Designed and implemented STRANCompliance smart contract module encoding CISA Art. 10 transfer restrictions on-chain
- Built IdentityRegistry contract for on-chain KYC/AML, whitelist management, and investor eligibility verification
- Authored token structure documentation aligned with FINMA guidance on DLT Act ledger-based securities

EXPERIENCE

Co-Founder

Nov 2025 – Present

STRAN — Zurich, Switzerland

Swiss DLT Act 2021 real estate tokenisation platform, co-founded with a former UBS Managing Director and non-executive board member at UBS.

- Sole architect of live ERC-3643 T-REX custody and wallet stack on Polygon mainnet — same institutional token standard as Tokeny, BrickMark X, and Fidelity's tokenisation infrastructure at Sygnum
- Built 6 smart contracts: STRANToken (ERC-3643), IdentityRegistry (on-chain KYC/AML), STRANCompliance (CISA Art. 10), ProfitDistributor (XCHF yield), TrustedIssuersRegistry, STRANTokenFactory — all UUPS upgradeable proxies
- Active pipeline: CHF 500K proof-of-concept acquisition in progress; expressions of interest from Sohar Bank (Oman), UBS, and institutional investors

Intern — Office of the CEO

Summer 2022

Port of Duqm, SAOC — Oman

- One-month placement in the CEO's office — exposure to institutional decision-making, executive operations, and Gulf business culture

Service Staff

2024 – 2025

Le Pain Quotidien — Zurich

- Four months working entirely in German — consolidated professional working-level German fluency

EDUCATION

Assessment Year — Business Administration

2025 – Present

University of St. Gallen (HSG) — Switzerland

- Relevant coursework: Business administration, Accounting, Business law, Mathematics, Micro/Macroeconomics

French Baccalauréat		2024
Lycée Français de Zurich — Zurich, Switzerland		
SELECTED PROJECTS		
ETH Zurich Ideathon — Winner		2025
• Won with a Solana-based AI agent project integrating reputation-based wallet access for online payments — only HSG student in a predominantly ETH Zurich field		
Hedera & ERC-3643 Permissioned RWA Token		2025
• Designed and deployed a permissioned token on Hedera Token Service with built-in on-chain profit distribution — precursor architecture to STRAN		
SKILLS		
Legal & Regulatory Swiss DLT Act 2021 CISA Art. 10 Lex Koller (LFAIE) FINMA classification RWA tokenisation deal structuring		
Blockchain ERC-3643 / T-REX Solidity Hardhat UUPS proxies Polygon Hedera on-chain KYC/AML
